

Retail Organizational Employment Program

This CARF accredited program provides work opportunities to individuals with a documented disability and who have sufficient skills to operate independently in a retail setting. The program is intended to help participants gain the skills necessary to obtain competitive employment. Individual Program Plans are developed and reviewed biannually to help the participant work towards achieving the long term goal of competitive employment. An Employment Specialist is also available when needed, and makes frequent visits with each participant.

This program operates during Goodwill's retail hours. Retail Organizational Employment is a non-fee program with openings based upon the business needs of our many locations. The program is fully supported by revenue from our stores. If there is an instance where Goodwill is unable to provide a service, an appropriate referral source may be given to a participant. This program does maintain a constant waitlist. For inquiries about the program please contact our Employment Specialist at (402) 438-2022 ext. 106.
